

Half Cube Ice Maker

Compact ice for fast cooling of drinks and dishes!

Cell technology for long-lasting ice and cost-efficient continuous production.

Using R448A reduces GWP by 65% compared to R404A refrigeration

DRI-230LHF-SAB

[Outside Dimensions]	W700×D790×H1880+20mm
[Power Supply]	3 Phase 200V
[Electrical Consumption]	980/1140W
[Ice Production Per 24h]	205/220kg (AT.20°C/WT.15°C) 170/185kg (AT.30°C/WT.25°C)
[Freeze Cycle Time]	16/15min (AT.20°C/WT.15°C) 19/18min (AT.30°C/WT.25°C)

Ice Production
205/220kg/day

Storage Capacity (Bin Sensor)
Approx. 150kg (125kg)

Half cube ice

- Approximately 1/3 the size of cube ice.
- Slim ice that easily fits into gaps and cools drinks quickly.
- Half cube ice is perfect for making smoothie!

New latch handles

- Compact designed for excellent operability.
- Made from rust-resistant plastic material.

Model change for the storage unit

- The door panel has been changed from smoke gray to clear, improving visibility.

Slim & flat front model

Ice Production
205/220kg/day
Storage Capacity (Bin Sensor)
Approx. 120kg (100kg)

- Flat-front model available with stocker modification.
